# GOLD

## MARINE PLYWOOD

Sharon GOLD easily ranks among the finest of plywoods, simply by virtue of its high-quality hardwood origins and the immaculate care that goes into its making. The plywoods are strengthened and made more durable through veneer core jointers and the application of preservatives. This doesn't just meet the need of your premises, but bestows upon it the elegance it deserves – in addition to the robustness.

### KEY FEATURES

- Only plywood in the industry that passes 30 stringent in-house tests for best quality.
- Fully Automatic Veneer Core Composer provides single sheet of cross and panel core, resulting in greater strength and stability.
- IS: 710 - Boiling Water Proof Grade.
- E0 Emission Compliant Product.
- Fire Retardant - Conforming to ASTM E84 Standards.
- ANTI-BACTERIAL, ANTI-MICROBIAL, ANTI - FUNGAL.
- 30 year warranty\* against Borers and Termites from inside.
- Two tier treatment: Kyoto Pro-Tech & ACC.
- Calibrated Plywood.
- CARB Certified.
- FIRESAFE: Best-in-class protection to limit spread of fire & smoke.
- VIRASAFE: Surface treatment with Activated Nanoparticles that makes the product 99.99% virus safe.
