

## Look who is inside!

Usually the inside shapes the outside.

A healthy mind almost always gets reflected in a healthy body.

A strong foundation always results in a sturdy outcome.

In some cases what goes inside is not very apparent.

The beautiful outsides tend to overshadow the insides.

Here in this calendar - the fifth in our series of themed desk top calendars, we look at the insides of some well known buildings. Most of the buildings featured here are well recognised from the outside but not necessarily so from inside .

'Inside' is an appropriate perspective for Sharon Plywoods.

Sharon finds a place inside many a well known building in India.
